

Resolving Tipped-Wage Payroll Warning

Last Modified on 04/16/2024 11:23 pm MDT

If Tipped Wage Rules have been established, then Tipped Wages must be properly configured.

If a Payroll Warning asks you to Resolve / Add Rule to a Tipped Wage, take the following steps.

Re-enter the wage (dating to start of pay period), and be sure that Tipped Wage fields populate automatically from existing Rule upon entry of the wage.

Tipped Wage

Minimum Wage \$	<input type="text" value="10.10"/>	Max Tip Credit \$	<input type="text" value="6.26"/>	Applicable Tip Credit \$	<input type="text" value="6.26"/>
Min Tipped Wage \$3.84		OT Tipped Wage \$8.89

If the Tipped Wage data does not populate upon re-entry of the wage, please reach teamworksupport@spoton.com

If you need to update more than a few records, re-apply the Wage Rule across the company, and all wage rules will be updated with a single entry. See: <http://support.dolceclock.com/help/entering-and-updating-minimum-and-tipped-wage-rules>
