Managers Unable to Perform Manager Level Functions

Last Modified on 02/22/2023 4:33 pm MST

Common Causes:

1. **Login**: After a permission is assigned, employee must login fresh to enable their permissions.
2. **Screen Selections** not set
   1. Location "Quick-Collapse" hides schedule.
   2. Schedule Selector loads visible schedules.
   3. Working / Secondary toggle is not engaged (grey=off, blue=on). When the selector is on, then secondary / working / borrowed employees are visible.
   4. By Employee schedule type is required to see employees on the left side of the schedule. In this view Cut / Copy / Paste icons are engaged.
   5. Show Clock-Ins is toggle makes time punches visible and editable.
