

Adding Taxes & Benefits to Labor Analytics

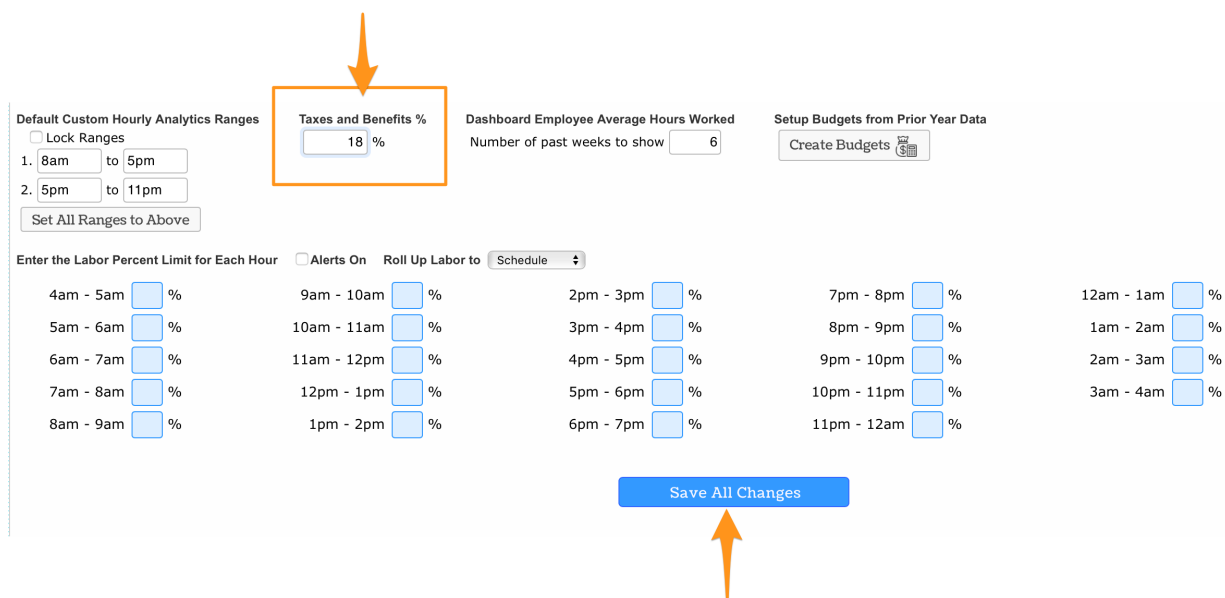

Last Modified on 12/24/2023 1:47 pm MST

Teamwork allows you to add estimated taxes and benefits to your labor analytics.

1. From the Gearwheel Menu > Analytics

2. In the Taxes and Benefits% field, enter the % addition to your labor that you estimate for taxes and benefits. Typically this is 13%-21%. Click **Save All Changes** to complete.

After the entry has been made, an additional band in schedule analytics and reporting shows the labor augmented with estimated taxes and benefits:

Total Week

				Sunday - Saturday
	2018	Budget	Scheduled	Actual
Sales	\$7,630		\$ 29,500	\$ 28,295
Hours	429		411	419
OT Hours	0		0.0	0.0
\$ Hourly	\$3,845		\$3,861	\$3,962
\$ OT Premium	\$0		\$0	\$0
\$ Hourly + OT	\$3,845		\$3,861	\$3,962
% Hourly + OT	50.4%	0	13.1%	14.0%
