

# Integrating Tripleseat with a Teamwork Schedule

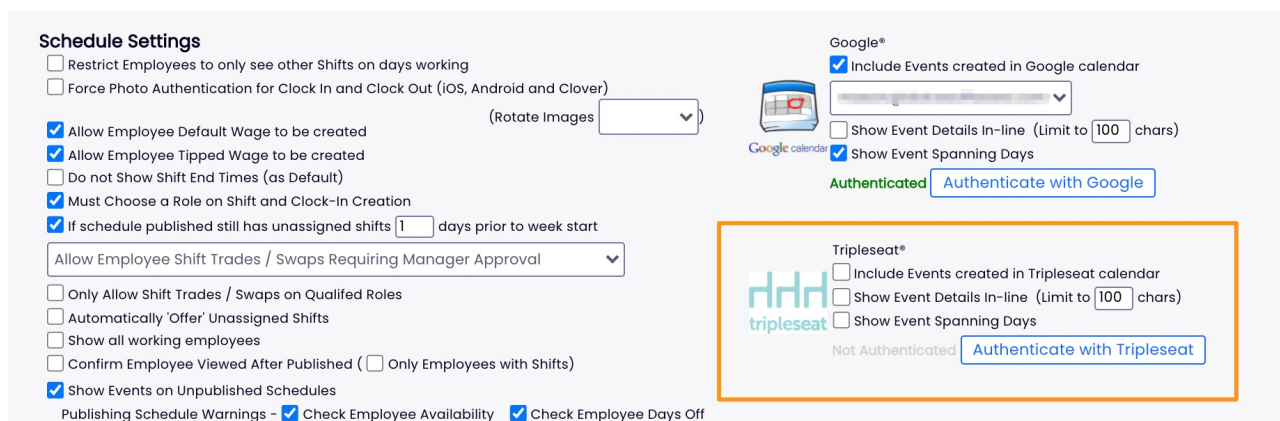

Last Modified on 11/08/2023 1:55 pm MST

Teamwork now offers an integration with Tripleseat®, the leading restaurant event management software. You can associate your schedules in Teamwork with rooms from your Tripleseat® account for real-time event updates.

Navigate to schedule settings from the Gearwheel > General Settings. Click the plus sign on the schedule you'd like integrated with Tripleseat®.

Below the Google calendar authentication and sync settings, you will see the Tripleseat® settings.

When you click "Authenticate with Tripleseat," you will be prompted with the following screen.

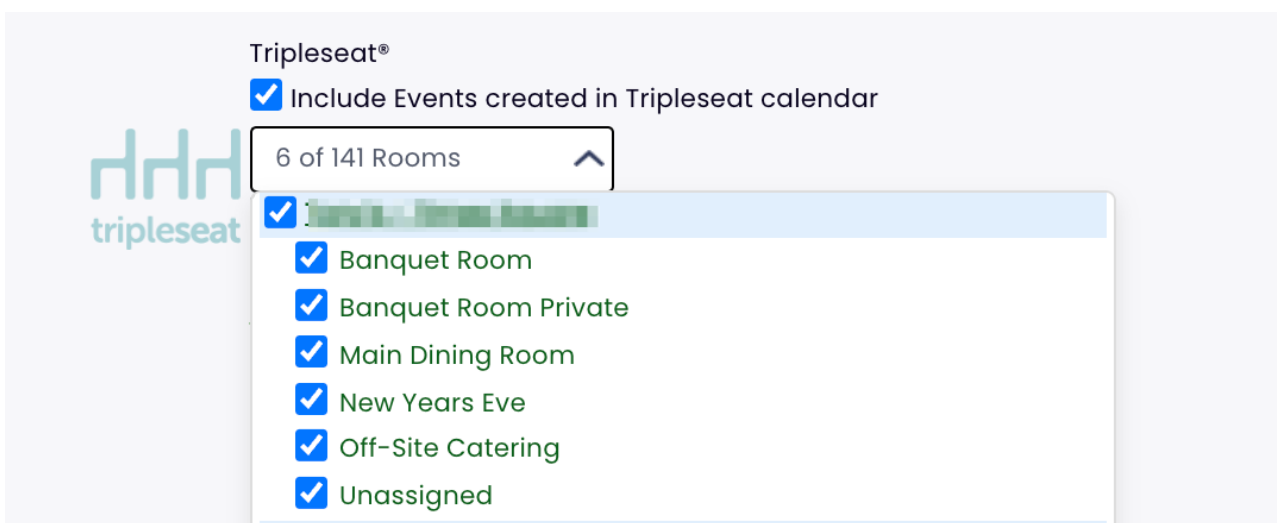

### Please Enter Your Tripleseat API Keys

Public Key:

Secret:

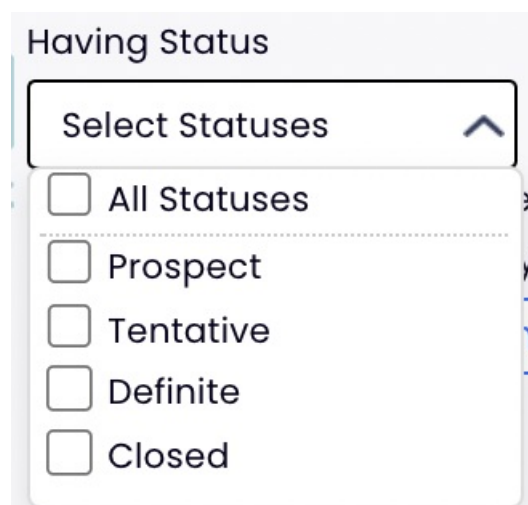

"You'll need to attain your Tripleseat account's public token and secret key. This can be found by logging in to your Tripleseat account and going to *Settings -> Tripleseat API*. If you don't have access to this area, you'll have to request it from the customer admin." (<https://support.tripleseat.com/hc/en-us/articles/205820987-API-Authentication>)

When you enter these credentials, you will have opened a real-time sync with Teamwork. You can then choose exactly which "rooms" apply to this Teamwork schedule.

And now, from the schedule view, you'll be able to see your TripleSeat® events populate (and update in real time.)

You can use the following filter to determine which events populate the calendar.

Sun Jan 23 (24)	Mon Jan 24 (24)	Tue Jan 25 (24)	Wed Jan 26 (24)
