Sync Wages From POS

Last Modified on 12/24/2023 9:52 am MST

Teamwork can be set to import POS wages at the time an employee is added, and imports to Teamwork.

When wages are added to the POS *after* the initial import, Teamwork does not retrieve the wage, because most POS systems are not date intelligent with respect to wages. In Teamwork, all wages must have a start date.

If you'd like to use the POS for wage additions, the following two choices exist:

1. Sync Wages with with POS [commonly done prior to running payroll]:

From the gearwheel menu > Wage Settings

Filter on a Location if applicable, and choose **Wage Sync with POS or Payroll** as shown below

Wage Settings and	Rules
Filter by Location: (B	lowing Rock) Famous Toastery 🗸
Wage Sync with POS or P	ayroll 🗸

Populate the following settings:

- Select Assign Wages to these Roles
- Choose which POS account you are syncing
- Check "Create Changed Only" to update only wages that are new or that have changed
- Using the date field shown, enter the effective date, i.e., start of the pay period
- Press Apply Wage Change

The resulting preview will show any potential wage changes to match Teamwork to the POS

- If the change is not desired for a particular employee, uncheck the checkbox shown for the employee
- Press Proceed with Changes to add the proposed wage changes

		POS		
🗹 Nate		•		
Hourly	Dishwasher	\$0.00 -> \$13.65 ^{pos}		
Hourly	Cook	\$0.00 -> \$14.00 ^{pos}		
Christina				
Tipped	Server		\$14.20 -> \$10.63 ^{pos}	
Tipped	Bartender		\$14.20 -> \$10.63 ^{pos}	
🗹 🛛 Alazan	т	eamwork		
Tipped	Server		\$14.20 -> \$10.63 ^{pos}	
22 Employees Changing				
		** THIS	S ACTION IS NOT REVERSIBLE **	
Verify Tipped Wage Increases vs Regular Wage Increases				
Verify All Employee Wages Are Accurate				
Contact Support with Questions				
Proceed with Changes Cancel				

2. Alternate Method: Prompt for Date

An alternative method is to engage a setting which imports all POS wages and prompts an admin to apply a start date to all wages, as they import, from the Teamwork Dashboard. If you'd like to engage this method, please email us at teamworksupport@spoton.com
